

## Hydraulic Compensators

Available in 1/2 Liter, 1 Liter, 1/2 Gallon, 1 Gallon, 2-1/2 Gallon, 5 Gallon

5 Psi, 10 Psi, or per your requirement

The Rovsco line of Hydraulic Compensators are made to provide years of trouble-free service when used on ROV hydraulic circuits and other system applications.

Made from aluminum alloys and stainless steel, these units are designed to be light weight, yet rugged; and work flawlessly providing hydraulic compensation. Each Hydraulic Compensator comes equipped with a stainless steel relief valve, preset to provide protection in case of overfill, thermal expansion of oil, or excessive pressure. The unit is compact and has no rod that sticks out.

Liquid Level is indicated by knobs that travel alongside the main body and are easily monitored from all sides.

Hydraulic Ports are available in SAE or NTP standards.

### Features

- ◆ No plastic parts, all metal fabrication
- ◆ Light Weight
- ◆ Liquid Level Indicator
- ◆ Preset Pressure Relief Valve
- ◆ Hard Anodized

### Applications

- ◆ ROV Hydraulic Tool Circuits
- ◆ HPU's
- ◆ Oil-filled Junction Boxes and Reservoirs
