

Skin Contact: Remove affected clothing. If material is hot, submerge injured area in cold water and get medical attention.

Inhalation: This material has a low vapor pressure and is not expected to present an inhalation exposure at ambient temperatures.

Ingestion: Do not induce vomiting.

Section 5 – Fire Fighting Measures

Flash Point: 240°C (465°F)

Flammable Limits: no data

Extinguishing media: Dry chemical, foam or carbon dioxide. Water spray is ineffective.

Unusual Fire and Explosion Hazards: Use water to cool exposed containers. Do not spray water directly on burning material.

Special Fire Fighting Procedures: Burning may generate dense smoke. Carbon monoxide and carbon dioxide may be generated as combustion products.

Section 6 – Accidental Release Measures

Steps to be taken if material is released or spilled: Consult Health Effect information in Section 11 and Exposure Controls/Personal Protection in Section 8. Contain spill immediately. Do not allow spill to enter sewers or watercourses. Remove all sources of ignition. Absorb with inert material such as sand, clay etc. Large spills may be picked up with vacuum pumps, shovels, buckets and placed in drums for disposal.

Section 7 – Handling and Storage

Do not transfer to unmarked containers. Store in closed containers away from heat, sparks, open flame or strongly oxidizing materials. Keep fire extinguishers readily available. See NFPA 30 and OSHA 1910.106.

Section 8 – Exposure Controls/ Personal Protection

Respiratory Protection: Generally not needed, but if personal exposure cannot be controlled by ventilation, wear a properly fitted organic vapor/particulate respirator approved by NIOSH/MSHA for protection.

Protective Gloves: None required for normal application where minimal skin contact is expected. If hot material is to be used, then chemical and heat resistant gloves should be worn.

Eye Protection: Wear safety spectacles or goggles with unperforated side shields.

Section 9 – Physical and Chemical Properties

Product Weight: 7.17 lb/gal

Evaporation Rate: no data

Specific Gravity: 0.86

Vapor Density: no data

Boiling Point: no data
Volatile Content: 0%
Volatile Weight: 0%

Melting Point: Approx: 230°F
Solubility in Water: negligible

Section 10 – Stability and Reactivity

Stability: Stable
Conditions to Avoid: None Known
Incompatibility: May react with strong oxidizing agents
Hazardous Decomposition Products: Generally none, but carbon monoxide and carbon dioxide may result on burning.
Hazardous Polymerization: Will not occur.

Section 11 – Toxicological Information

Chronic Health Hazards: This product does not contain any IARC, NTP or OSHA listed carcinogens.
Exposure to a large single dose or repeated small doses of this product by inhalation, aspiration or ingestion may lead to lipid pneumonia or granuloma of the lung. These are low grade, chronic, localized tissue reactions. Shortness of breath and cough are the most common symptoms.

Section 12 – Ecological Information

Ecotoxicological Information: no data

Section 13 – Disposal Considerations

Waste Disposal Method: All disposals must comply with federal, state and local regulations. Waste from this material may be regulated. If regulated solvents are used to clean up a spill, the resulting waste mixture will be regulated. Department of transportation (DOT) regulations may apply. Waste material may be landfilled or incinerated at an approved facility. Recycling may be possible.

Section 14 – Transport Information

Not regulated

Section 15 – Regulatory Information

All chemicals in this product are listed in the Toxic Substances Control Act (TSCA) inventory.
